

myBrainshark Viewing History

Available in the myBrainshark Viewing Console, your Personal Viewing History will help you easily access myBrainshark or Brainshark presentations you've viewed in the past.

Possibilities

All myBrainshark presentations you view will display in your Personal Viewing History. Additionally, you will also see Brainshark presentations you have viewed provided that the authoring company has not disabled this feature.

How Do You Access Your Viewing History?

Viewing History is available in the myBrainshark Viewing Console.

Click the *Viewing History* icon, in the  lower right corner of the Viewing Console to open the Viewing History tiles.

What Will You See?

Once you open the Viewing History, you'll see the presentations you have viewed in the past displayed onscreen as tiles, 3 at a time.

1. Use the arrows to navigate through the list.
2. Hover over the thumbnail title to see a description of the presentation.
3. Click a presentation thumbnail to begin viewing that presentation. The presentation will load into the current browser window.
