

Flexible, Malleable,  
and Reusable

# RAMPART SHADOW

The Rampart Shadow is a flexible, malleable radiation shield designed to lay directly on the patient during cath lab procedures. Specially engineered to block scatter radiation coming from the patient, the Shadow offers seamless, unobtrusive protection for healthcare teams.

- Flexible and Reusable
- 0.5mm Lead Equivalent Soft Shielding
- Designed for Versatile Positioning Around the Patient
- Rolls-up For Easy Storage
- Lead-free
