

RAMPART BUNKER

The Rampart Bunker is a robust, adjustable, table shield, providing fortified protection for healthcare professionals. With a strong, stable design, the Bunker offers unmatched safety during interventional procedures by blocking scatter radiation at the table level.

- 1mm Lead Equivalent Abdominal Shield
- 0.5mm Lead Equivalent Soft Shielding
- Compatible with Nearly All Tables
- 7-Part Design for Greater Protection
- Lead-free

Segmented design allows for easy cleaning and replacement of individual parts.
