Product Release Notes

NEW

Brainshark for Coaching

- New Coaching features include:
    - **Administrative Usage Views**, allows the head coach to see data about all challenges and all challenge participants
    - **Coaching Administration**, allows the head coach to edit and delete challenges
    - **Reviewer Assignments**, enables challenge creators to select one or more users to be a challenge reviewer for a particular challenge. By default, challenge creators will be listed as a challenge reviewer, but they can delete themselves as a reviewer in order to send the challenge, at least one reviewer must be included.
    - **Group Invitations**, allows challenge creators to select groups to participate in challenges. Groups are derived from Brainshark's existing group manager functionality
    - **Send Reminder**, allows challenge creators and reviewers to send Reminders to participants that did not submit a response.

FIXED

Brainshark for Coaching

- Improvements made to upload process for larger video files
- Challenge submission emails are sent to reviewers after the video submission completes the conversion process.
- The average score calculation no longer includes scores of "0" from reviewers who have hidden the submission from the challenge leaderboard but have not provided a rating.
