Product Release Notes

NEW

Brainshark Core

Record from Webcam

With Record from Webcam, Brainshark content authors can create a video presentation by recording a video with their webcam.

Brainshark Sales Accelerator

SA Analytics, Training Insights, Manager Field

Brainshark Training Insights Summary dashboards and reports identify the student's manager's name as configured in Salesforce, for each learning record. This applies to both SA Analytics Performance Edition and Executive Editions. Both editions are available now available in the App Exchange.

FIXED

The following issues were fixed this release.

- Video Sync missing video in preview
- Mobile version conversion timing out
- Video slides are experiencing stuttering, freezing and poor playback
- Upload Failed message encountered when adding .swf files to an existing presentation
- Extreme buffering on video slides on Azure
- Emails to Self Reg Profiles not sent when using auto create in SA
