LEARNING

Learning Activities Early release 2/23/19

Authors can now create checklists of activities they want students to complete outside of Brainshark and track them as part of a curriculum.

- Easily assign and organize non-Brainshark learning activities for students to participate in such as shadow sales calls, attend meetings, and more.
- Users can even add links to checklists to direct students to blog posts and other content outside of Brainshark.

Miscellaneous UX Improvements

Early release 3/8/19

Learning Locker Early release 2/23/19

- Hover text for course / curriculum titles on Progress Tracker
- Auto refresh of My Enrollments and Curriculum Details for SCORM courses
- Auto collapse Progress Tracker when no open To Do items or active course sessions alerts

My Courses & Curriculum

- Sticky filters and search selections
- 'View Course' opens a new window
- Clear selected curriculum

ADMINISTRATION

'Manage Presentations' Page Redesign

The 'Manage Presentations' page is redesigned to be consistent with other recent Administration UI changes.

The page is responsive to browser resizing and includes new fields, additional filtering options, bulk editing of Status, Folder and Author, and exporting to a .csv file.

Annotations for the 'Manage Presentations' page:

- Filter by Courses, Presentations or All Items
- Active or Inactive Content
- Filter by Folder
- Export data to .csv for reporting
- Bulk editing of Status, Folder and Author
- New fields: Last Viewed and Expiration Date
- Actions menu
